February 2010 - January 2012

Senior Advisor

Policy and Programming; Planning; Forestry; Conflict management; Environmental Economics

Consultant of the Roma Province (Italy) - Agricultural Department

Support to the strategic implementation of the local Policies: afforestation design advice, GHG's emission reduction estimate; management of participatory forest planning; analyses of private/public forestry utilization plans and advice for their sustainability; support to the design and organization of an experimental voluntary carbon market development; estimate of public goods (woods, rural landscapes, wetlands) to implement PES.

1) Creation of a local (province) carbon market based on forestry sustainable management compensation credits; 2) definition of the non-market and market monetary components of the Total Economic Value of three main natural systems (woodlands, wetlands, rural landscape "agro-romano") to create an institutional benchmarks system for a Pay for Ecosystem Services scheme, environmental damage estimates, bottom up local negotiations (land use planning and change, etc.); 3) governance of the start up and implementation of participative planning of natural resources (forests), managing conflicts among actors (parks and institution bodies, forestry owners, local stakeholders).

Capitale Lavoro Spa –Province of Rome

July-September 2010

Senior Consultant

Program evaluation

Comparative analysis of operating Rural Development Programs (Marche, Toscana, Liguria, Calabria Regions) and compulsory EU evaluation schemes to select the best set of new and not ruled evaluation themes to be deepened, based on Regions characteristics and requirements

Ecosfera Spa, Rome

November 2009 – October 2010

Senior Expert

Policy and Programming; Leadership Development; Management

Senior Expert – Technical Assistance of the Lazio Region's Rural Development Program

Support to the best implementation of the Rural Development Program: integrated project team organization and management; Integrated Project analyses / evaluation design and implementation; support to rural development calls management (analyses, selection, valuation); inquiry optimisations, support to policy implementation (documents analyses, deepens/advice on demand).

Main achievements	1) Design of the valuation methodology, software tool and procedure of the Rural Program integrated projects (territorial, bio-energy and agri-food chains); 2) staff capacity building; 3) training of the staff on the EU programming and the technical assistance subjects.
Name and address of employer	Arsial - Lazio Region (Agricultural Department)
Dates	November 2008 – March 2010
Occupation or position held	Advisor of the Lazio Region (Italy) for the Rural Development Policy implementation
Type of business or sector	Policy and Programming; Forestry and Rural Development; Governance; Planning, Bio energy, Conflict Management
Main activities and responsibilities	Support to and implementation of the Integrated Territorial Projects: design of the call and valuation structure; support to the governance of the process; facilitation to local agreements among public bodies and economic actors (energy, livestock, agricultural and forestry sectors). Assistance to the bio energies implementation at the basin level (conflict management, agreements facilitation, scientific analysis, planning management); support to the relationships management of the Regional Management Authority with the EU, National and Local Administration bodies for the Rural Development Plan implementation.
Main achievements	1) Implementing the capacity building of the Public Administration, mostly toward a more participative and transparent management of the rural development resources; 3) implementing the Public Administration vision of agriculture, rural development and bioenergy; 3) incrementing the Administration call characteristics toward EU standards (call structure and evaluation system) of complex demands (integrated projects); 4) implementing the rural vs urban linkage for sustainable bio-energy use.
Name and address of employer	Lazio Region – Agricultural Department
Dates	July 2001- June 2008
Occupation or position held	Italian Senior Expert (UE programming) - sustainable development
Type of business or sector	Policy and Programming; Forestry and Rural Development; Governance; Planning, Environmental management; Teaching; Conflict Management
Main activities and responsibilities	Representative of the National Environmental Authority at the Monitoring Committee of the Research EU Operational Program and the Basilicata Region EU Operational Program; technical assistance on the integration of the environmental dimension in the UE structural funds programming, in particular to the Puglia, Campania and Sardegna Regions (e.g. Calls and Project structure and characteristics, spent evaluation and reporting); since 2004 technical assistance for the Italian Environmental Ministry (Directorate General "environment and research") on the rural development issues and representative of the Ministry at the Agri-environment Working Group at the EC Directorate General Environment; since 2005 co-operation with the Ministry of Agricultural Policy for the drafting of the 2007-2013 Rural Development National Plan; since 2005 technical assistance to the Sardegna Region on rural development and sustainable forestry issues (forestry management, PES, tourism, rural marketing); since 2005 co-ordinator of the Rural Development Working Group of the National Network of Environmental Authorities. Representative of the Sustainable Research and Development Directorate General of the Italian Ministry of the Environment in the Inter - Ministry Working Group for the Regional Landscape Master Plans drafting.
Main achievements	1) Contributing to the sustainability of the 2000-2006 UE structural funds programming (documents editing and revising, Regions operational bodies advising, ecc.); 2) contributing to the concrete implementation of the environmental dimension in the Italian Operational Regional Programs calls; 3) contributing to the capacity building of the Public Administration and its Technical Assistance (during the programming period implementation); 4) contributing to the implementation in the strategic, programming and operational documents of the landscape ecology concepts and solutions; 5) contributing to deepen the ecological perspective in the landscape perceiving and planning in some National and Regional Public Administrations; 6) contributing to the pay for ecosystem services and measures integration principles consideration in the Italian 2007-2013 rural programming period.
Name and address of employer	Ministry of the Environment
Dates	1989 - today
Type of business or sector	Forestry; Rural Development; Spatial Planning; Environmental Management; Environmental Impact Assessment; Landscape Ecology; Environmental Economics; Wetlands; Conflict Management; Leadership Development; Teaching;
Main achievements	1) Implementing applied research results to the landscape resource management, in particular

Occupation or position held	deepening the fields of the ecological spatial planning and environmental restoration/amelioration design; 2) deepening the implementation, management and programming aspects of development policies, in particular in the rural and landscape sectors; 3) the experience gained in a wide range of professional contributes, from the applied field to the policy design, could allow a pragmatic / practical approach to problem solving.
Main activities and responsibilities	Consultant - co-ordinator of Planland Org. (www.planland.org)
Name and address of employer	Ecological Researches and Environmental Monitoring; Environmental Management and Design: wasted areas restoration, wetlands; Studies and researches on Landscape; urban green areas; Environmental Assessment studies.
Dates	Myself
Occupation or position held	March 2007- July 2007
Type of business or sector	Contract Professor of Sustainable Planning
Main activities and responsibilities	Teaching
Main achievements	University training and tutoring
Name and address of employer	Implementing the sustainability vision even from the cultural perspective or in the concrete scientific principles and case studies.
Dates	Universita' Politecnica delle Marche (Italy)
Occupation or position held	February 1997- September 2007
Type of business or sector	Contract Professor of Landscape Ecology
Main activities and responsibilities	Teaching
Main achievements	University training and tutoring, applied research
Name and address of employer	1) Contributing to the development of landscape ecology even from the didactic point of view or from the applied research point of view; 2) tutoring of 2 PhDs thesis, 11 master's degree thesis, 1 practising.
Dates	Ca'Foscari University of Venice (Italy)
Occupation or position held	July 2006 - December 2006
Type of business or sector	Contract Professor of "coastal landscape ecology", EU Master "EDUCOMMED", Integrated Coastal Areas Management in the Mediterranean"
Main activities and responsibilities	Teaching
Main achievements	Master training and tutoring (http://www.educom-med.org)
Name and address of employer	Implementing the holistic landscape ecological vision in the concrete management tasks.
Dates	Interdipartimental Centre IDEAS, Ca'Foscary University of Venice (Italy)
Type of business or sector	January 2004 - December 2004
Occupation or position held	Project managing
Main activities and responsibilities	Project manager
Main achievements	Management of a high level international training course (environmental management and sustainability); team management in Venice, Budapest and Beijing.
Name and address of employer	1) Contributing to the sustainable culture development in the public administrations of Central Europe and Chinese Governments; 2) implementing the staff capacity building and the management quality standard of an international high level training.
	International Venice University (in collaboration with: Chinese Academy of Social Sciences, Chinese Ministry of Technology, Regional Environmental Centre for Central and Eastern Europe)

Education and training

Dates	July 2001 - June 2002; July 2002- - June 2008
Title of qualification awarded	National Senior Expert, within the National Operating Program ATAS 2000-2008.
Principal subjects/Occupational skills covered	High management training: capacity building, project management, communication techniques, governance, EIA-ex ante valuation - SEA, EU programming and laws, project financing
Name and type of organisation providing education and training	Formez Pubblica Amministrazione, Dipartimento della Funzione Pubblica - Presidenza del Consiglio dei Ministri, on behalf of the Italian Government
Level in national or international classification	
Dates	November 1990
Title of qualification awarded	Professional course
Principal subjects/Occupational skills covered	Landscape Conservation and management
Name and type of organisation providing education and training	Padua University, Padova, Italy
Level in national or international classification	
Dates	July 1990
Title of qualification awarded	Professional course
Principal subjects/Occupational skills covered	Historical green spaces management
Name and type of organisation providing education and training	Regione del Veneto, Venice, Italy
Level in national or international classification	
Dates	August 1988 September 1989
Title of qualification awarded	Scholarship research
Principal subjects/Occupational skills covered	Eco-physiology of <i>Musccardinus avellanarius</i>
Name and type of organisation providing education and training	University of Lausanne, Lausanne, Switzerland
Level in national or international classification	
Dates	September 1981 - November 1986
Title of qualification awarded	Forestry Science Degree (M's equivalent)
Principal subjects/Occupational skills covered	Field thesis research (3 years): Ecology of <i>Glis Glis</i>
Name and type of organisation providing education and training	Padua University, Padova, Italy
Level in national or international classification

(*) Common European Framework of Reference (CEF) level

Membership of Professional Bodies

Nationally Certified Professional Forester (II session qualification, 1987). Licensed Professional Forester from 17.02.1989 (today n. 1848 in the roll).

Social skills and competences

I had to develop my team working and capacity building aptitude like my project management competence particularly during my high training experience as national ministry expert, my leadership capacity in my consultant co-ordinator role, and my negotiation skill in each tasks.

Organisational skills and competences

During my professional experience I had to solve organisation and budgetary problems in projects and programs related to the considered field, even from the professional or the civil servant point of view. For these reasons too I was selected and trained by the Italian Ministry of the Environment, in an EU co-financed National Operative Program, as Senior Expert for the sustainable development.

Technical skills and competences

I currently have developed scientific, technical and managing competences; I deepened the EU programming and rule tools for local development, developing policy advising skills.

Computer skills and competences

I currently use statistical (STATISTICA, SPSS), office (Windows, openoffice), GIS (Mapinfo, ArcGis) and internet communication software.

Artistic skills and competences

I studied singing at Scuola di Musica Antica Jacopo da Bologna and I sang in the Cappella Ducale di Venezia. I am fond of tango, mountain trekking, bowling, reading poetry, novels, and history.

Other skills and competences

Memberships - American Society of Agronomy, Society of Wetland Scientists, International Association for Landscape Ecology, International Water Association. See in http://www.planland.org/pages/chi_daniel.html
